Date: October 5, 2017

Dear **Bro. Lai**,

With Compliments!

I write to kindly make an appeal to all humanitarian organizations and well-meaning individuals to provide medical aid for a very Strong Peace-BUILDER; Madam Annie F. Nushann. Madam Nushann is the head of Peace Huts in Liberia, an establishment making tremendous contributions to the sustenance of peace at the community level in Liberia and other parts of the Africa.

She has been ill for over Seven (7) months now; has been treated in Liberia at many clinics and hospitals. It was identified at one of such visits that there was fluid under her Right Lung. Surgeries were performed here in Liberia and even in Ghana to extract the fluid, many other laboratory and radiology examinations have also been conducted to ascertain her exact diagnosis but her condition has still not improved.

She is expected to travel to Botswana for advanced check-up and treatment, which will cost about US\$10,000.00. With the prevailing situation in Liberia, her family and relatives are unable to financially underwrite this cost. Therefore, I am appealing for generous donations toward saving the life of a Peace Heroine.

Thanks so much and I look forward to hearing favorably from you.

Best Regards,

Sincerely,

A handwritten signature in blue ink that reads "Leymah R. Gbowee".
