Introduction to Course Content

Each week's theme will be covered in three sessions, combining talks, guided practices and questions for reflection. Four LIVE sessions with the monastics (shown in RED) offer a valuable opportunity to connect directly with our monastic teachers and with the wider community of participants joining the same cohort. You are also encouraged to join four live group sharing sessions (shown in BLUE). The collective support of your sharing group is essential to developing self-awareness and training in the practice of deep listening and compassionate speech. They are an integral part of the course and (we think!) the most rewarding and transformative. You can choose to join a group that meets either on Fridays or Saturdays, at a time that works for you in your timezone.

Course teachers

All of the monastic teachers in this course have been trained directly by Thich Nhat Hanh and live in monasteries of the Plum Village Tradition around the world. The non-monastic teachers have also all been studying the teachings of Thich Nhat Hanh for over 20 years and have been appointed teachers in their own right. We have a range of nearly 20 teachers guiding this course, and you will find out more about them as you travel through the course material.
